```
*****
Ensure you have a latest backup of files/DB before you overwrite any file!!!
And make sure you not login admin panel while you upload (install) the files in
folder.
*****
```

=====

| Folder Upload : |

=====

Step 1)

Please login to your FTP account and locate the Magento website path. Locate, root/app/code path and see if there is a folder named 'local', if not, create one and go to the folder.

Step 2)

Go to your local machine and open up the extracted FacileCheckout_Ver1.0.2 folder named 'osc_ver1.0.2', and locate the folder named 'FacileCheckout_Ver1.0.2'. Now, upload the 'FacileCheckout_Ver1.0.2' to the 'root/app/code/local'

Step 3)

Go to 'root/app/design/frontend/base/default/template' in your FTP and upload the folder files 'onestepcheckout' which is located in 'osc_ver1.0.2\app\design\frontend\base\default\template'

Step 4)

GeoIP Location (Optional):

Go to 'root/lib' in your FTP and upload the folder named 'CogMaxMind' that is located in 'osc_ver1.0.2\lib'

Step 5)

Likewise, go to root/skin/frontend/base/default/images in your FTP and upload the folder files 'onestepcheckout' which is located in 'osc_ver1.0.2\skin\frontend\base\default\images\onestepcheckout'

=====

| Files Upload : |

=====

Step 6)

Upload 'onestepcheckout.xml' found in the 'osc_ver1.0.2\app\design\frontend\base\default\layout' to the remote FTP location 'root/app/design/frontend/base/default/layout'

Step 7)

Upload 'info.phtml' found in the
'osc_ver1.0.2\app\design\adminhtml\default\default\template\sales\order\view\tab' to the remote FTP
location 'root/app/design/adminhtml/default/default/template/sales/order/view/tab'

Step 8)

Upload 'FacileCheckout_OneStepCheckout.xml' found in the 'osc_ver1.0.2\app\etc\modules' to
the remote FTP location 'root/app/etc/modules'

Step 9)

Upload 'FacileCheckout_OneStepCheckout.excel' found in the 'osc_ver1.0.2\app\locale\en_US' to
your remote FTP location 'root/app/locale/en_US'

Step 10)

Upload 'onestepcheckout.css' found in the 'osc_ver1.0.2\skin\frontend\base\default\css' to
your remote FTP location 'root/skin/frontend/base/default/css'

Step 11)

Upload 'onestepcheckout.js' found in the 'osc_ver1.0.2\skin\frontend\base\default\js' to your
remote FTP location 'root/skin/frontend/base/default/js'

Step 12)

Kindly make the changes in the following file

To clean (Empty) shopping cart after success payment

Locate Quote.php from the following path
'root/app/code/core/Mage/Sales/Model/Service/Quote.php' and search "function submitOrder()"

```
function submitOrder() $transaction->addObject($order);
```

```
$transaction->addCommitCallback(array($order, 'place'));
```

```
$transaction->addCommitCallback(array($order, 'save'));
```

Include the below lines above the

```
$transaction->addObject($order); $this->_inactivateQuote();
```

```
//(or $quote->setIsActive(false); if previous line doesnt work)
```

=====

| **Php Myadmin or SQL :** |

=====

I)

Kindly execute the below lines in your DB(SQL)

ALTER TABLE `sales_flat_order` ADD `giftwrap` FLOAT NOT NULL;

ALTER TABLE `sales_flat_order` ADD `giftwrap_price` FLOAT NOT NULL;

=====

| **NOTE :** |

=====

If You are using ver 1.8.1.0,ver 1.8.0.0 and below version, please do this changes

Step 1)

change(replace) 'onestepcheckout.css' found in the
'osc_ver1.0.2\skin\frontend\base\default\css\magento_below_1.8' to your remote FTP
location 'root/skin/frontend/base/default/css/onestepcheckout.css'

Step 2)

change(replace) 'onestepcheckout.phtml' found in the
'app/design/frontend/base/default/template/onestepcheckout/magento_below_1.8/onestepcheckout.phtml'
to your remote FTP location
'/app/design/frontend/base/default/template/onestepcheckout/onestepcheckout.phtml'

=====

| **Admin Panel Changes :** |

=====

Let's do some more changes to the admin area of your website.

www.domainname.com/admin

A)

Login to your admin area and locate "System>>Cache", and choose select all from "Cache
Storage Management" and choose 'Disable' option from the dropdown menu and click submit.

B)

Likewise, select all from "Cache Storage Management" and choose 'Refresh' option from the
dropdown menu and click submit.

c)

Locate "System>> Configuration" and choose "One Step Checkout" underneath the 'FACILE CHECKOUT' menu from the left menu bar. Select 'Yes' from the drop down menu of 'Enable' field.

D)

Upon completing the above step, please save the config by clicking the 'Save Config' link on right side corner of the screen.

E)

Repeat option B once again and you are done!!!

Please contact support@cogzidel.com for any support and customization request. We are available from 10 AM - 7 PM IST during Monday to Saturday of a week. We're from +5:30 GMT and therefore there may be a delay in the response of the request.
